Experience

Ebani Tech - Junior Developer   **Jun 2023 - Aug 2024**

TrimX CRM

- Developed the TrimX CRM platform using React, Node.js, Express, and MySQL, optimizing performance and scalability with TypeScript, resulting in a 30% improvement in system efficiency.
- Led end-to-end development, collaborating with stakeholders to deliver tailored solutions that streamlined workflows and improved user experience, reducing manual processing time by 40%.

Hireosphere

- Engineered the Hireosphere HR platform with React, Laravel and MySQL, integrating resume parsing and data scraping via a Chrome extension, which boosted recruitment efficiency by 50%.
- Designed and optimized UI/UX, enhancing user engagement and functionality while contributing to backend development, leading to a 25% increase in user retention.

Projects

SkillForge AI (*Gen AI Tool*)

https://skillforge-ai-frontend.vercel.app/

- Developed a full-stack AI-powered learning platform featuring code explanation, resume optimization, and email assistance tools, demonstrating proficiency in modern React development, state management, and integration with AI services.
- Implemented comprehensive user authentication system with role-based access control, secure password management, and user analytics tracking, showcasing strong security practices and user experience design skills.

Menthetic (*Mens Clothing Store with Admin panel*)

https://manthetic-storefront.vercel.app/

- Engineered a full-stack e-commerce platform using React.js and Redux Toolkit, implementing real-time authentication, dynamic product filtering, and responsive design that delivers seamless user experiences across all devices.
- Architected and deployed a production-ready storefront with advanced features including infinite scroll pagination, JWT token management, comprehensive error handling, and mobile-first responsive design, achieving optimal performance and user engagement.
